

USA & Canada Recalibration Steps

How to send your FieldSENSE device for recalibration.

- 1 **Preparing the units:** Remove your FieldSENSE from its case, and remove the batteries from the device. Please do not ship your case or any of your accessories with your device.

- 2 **Capture the details** on the form below.
- 3 **Package for shipping** and include this form, fully completed – if you would like to ship on your own account fill out the relevant details on the form, alternatively please include your credit card details.
- 4 **Ship to:** FieldSENSE Recalibration, 1391 E. Boone Industrial Blvd., Columbia, MO 65202.
- 5 **Receive a fully refurbished unit** – typical turnaround time is **2 working days***. Please note the unit you receive in return will have a new serial number.
