

## Limited Warranty

FieldSENSE 2.0 Personal RF Monitor

FieldSENSE60 Personal RF Monitor

---

### What is covered

We, Alphawave Mobile Network Products (Pty) Ltd warrant that the fieldSENSE 2.0 or fieldSENSE60 will operate in accordance with the specifications provided in the included user manual in accordance with the terms and conditions laid out herein.

### What is not covered

- Scuffing, scratching or visible signs of wear and tear due to usage.
- Damage due to the installation of incorrect type or faulty batteries, including battery leakage.
- Liquid damage through immersion.
- Any damage due to abuse.

### Period

The warranty period of 2 (two) years following the original date of calibration.

### Corrective action

We will either repair or replace the unit at our discretion once a warranty claim has been made, and the unit returned to us.

### Procedure

Contact the reseller through whom you purchased the unit to initiate a warranty claim and include the proof of purchase.

### Limitations

- Any attempt to disassemble the device voids the warranty.
- Any units obtained through a means other than an official reseller are not covered by the warranty.
